

## Assembly instructions for curtains with wrinkle band tape

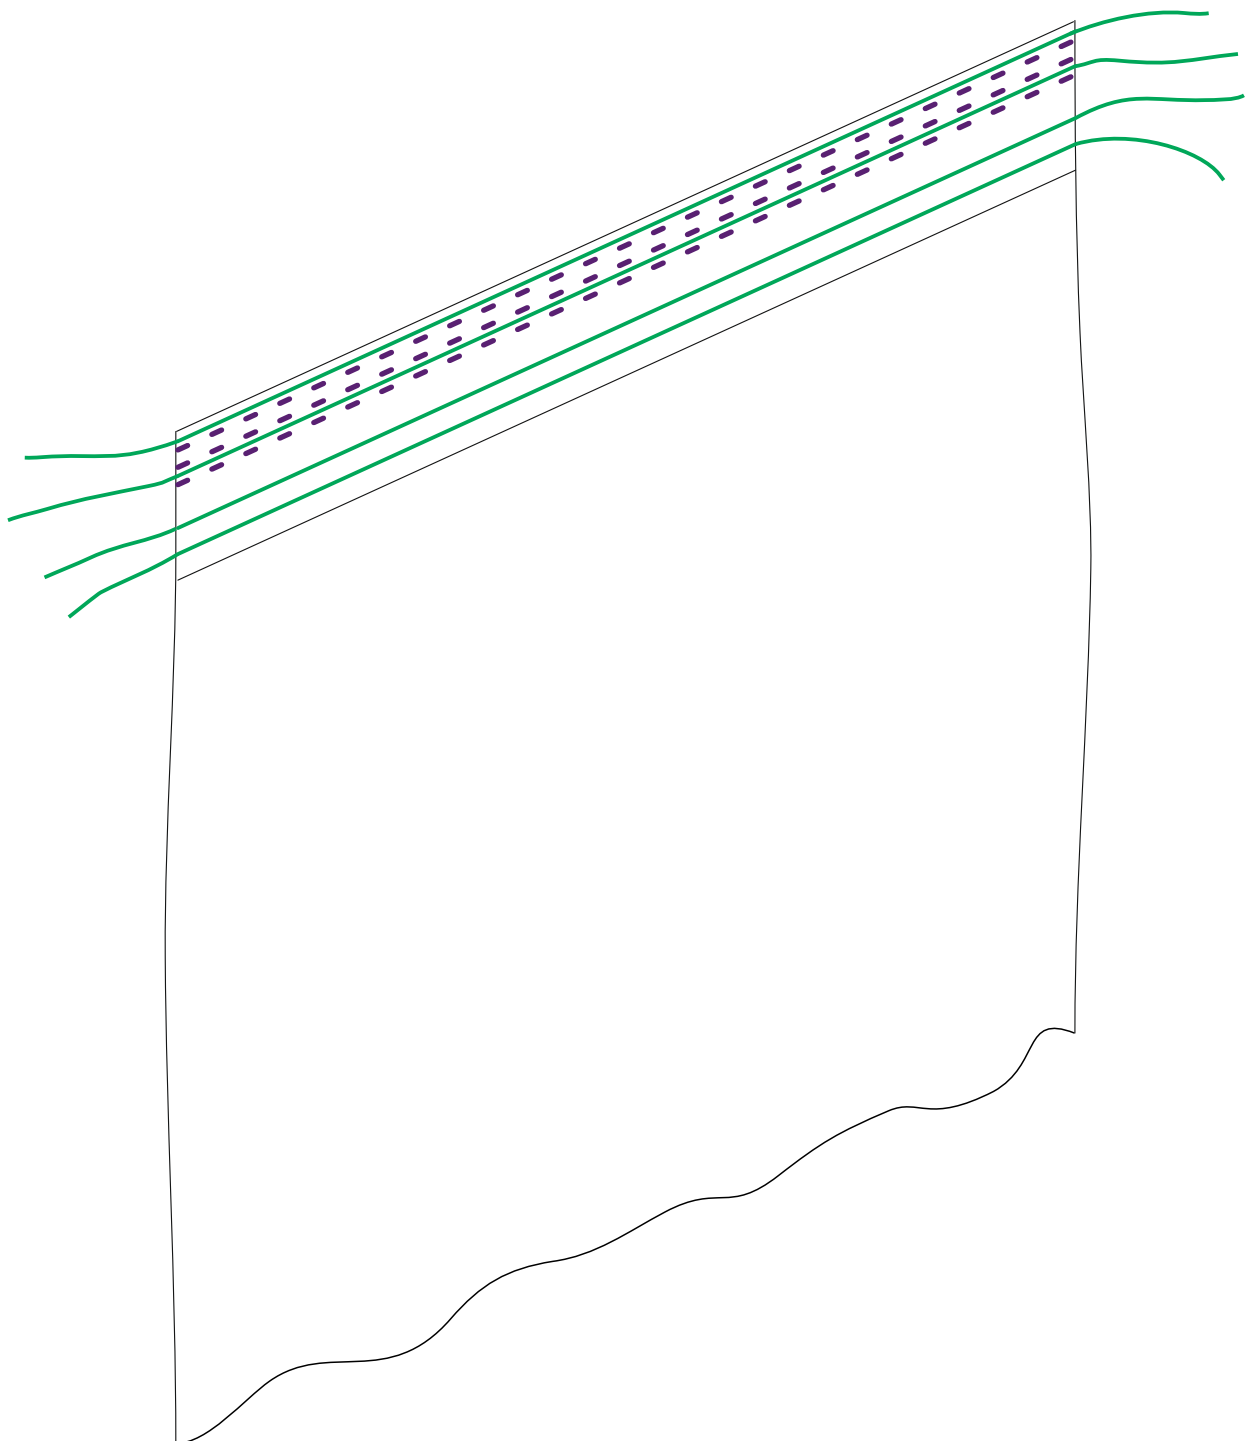

## Stage I

Wrink blind into any width. Wrinking is done by pressing the laces on both ends of the trays.

Note! To lock the wrinkle, scroll the laces. Do not cut off the end of laces. Blind after wrinkling, should measure about half of width

The laces are marked in green.

The purple color indicates the pockets for mount.

## Stage II

Mount the curtain on your curtain rod.

The curtain is suitable for mounting on all types of curtain rod and ceiling rails. If your curtain rod has not have a tie-down frog, you can use the hooks provided with the cover.

They can be used to hang the curtain by the pockets in the tape.

On the previous page, these are the purple-colored pockets.
