

# Installation instruction for 25mm wooden blinds.

Depending on the type of installation You have chosen there are 3 ways to install 25 mm wooden blinds.

Installation to the wall.

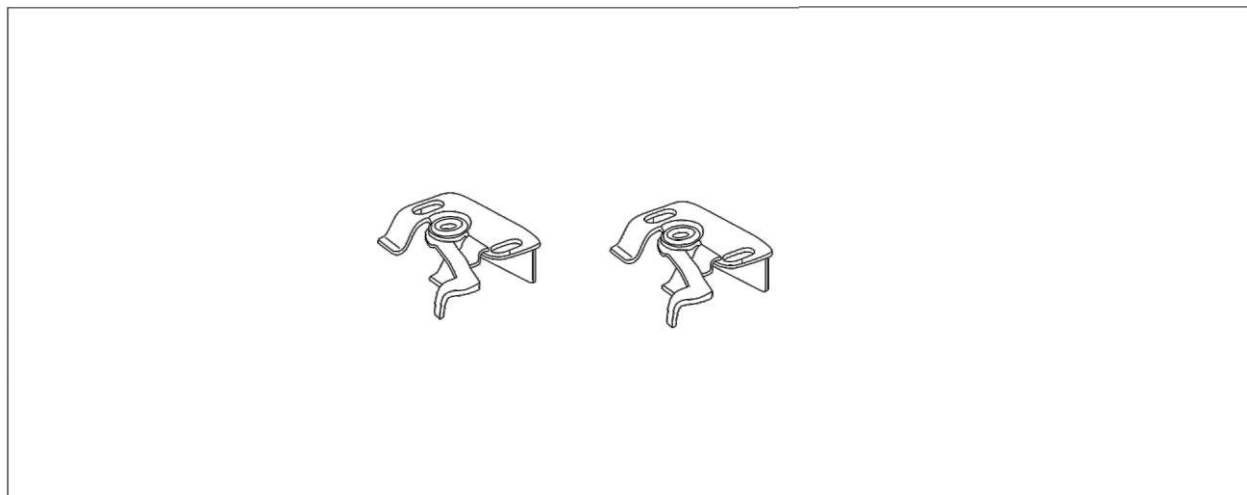

Installation in a recess.

Installation on the window,  
on the window frame.

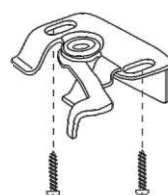

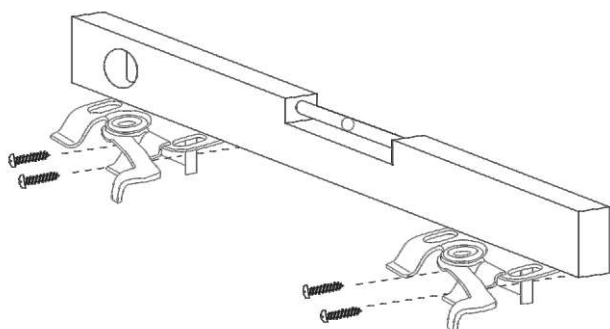

The following mounting hangers are supplied with the wooden blind. Their number depends on the width of the blinds. Minimum of 2 pcs. A maximum of 5 pcs.

The set doesn't include mounting pins or screws because their choice depends on the material from which the walls of the building or window frames are made of.

### Step I

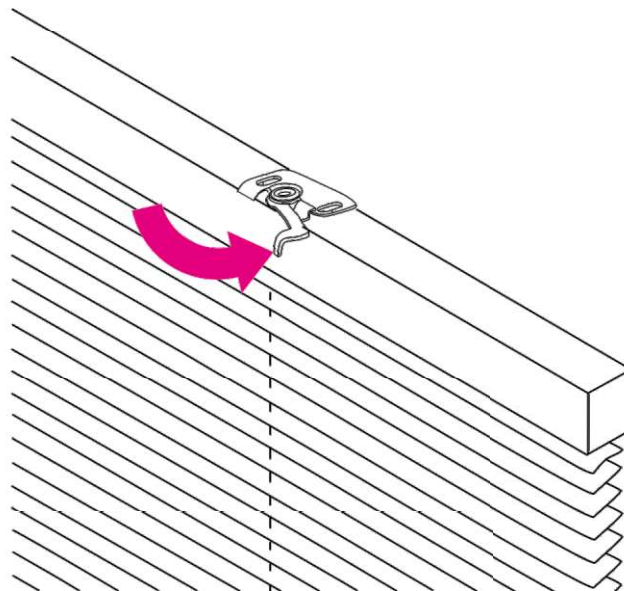

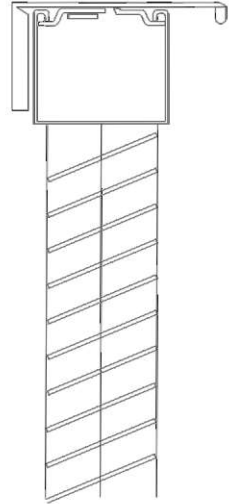

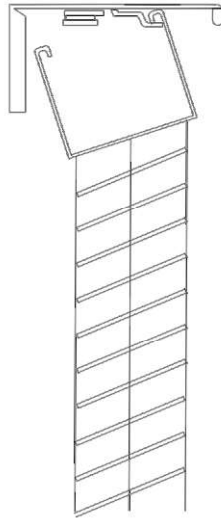

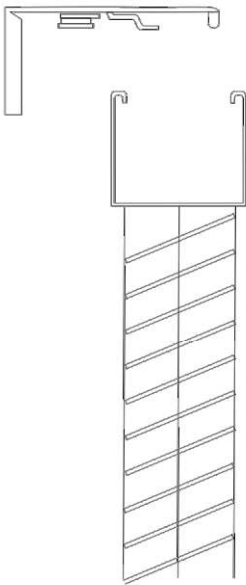

Install the mounting hangers in such a way that they don't interfere with the elements inside the gutter. For the blind to work correctly it must be mounted horizontally.

Install to the ceiling or recess.

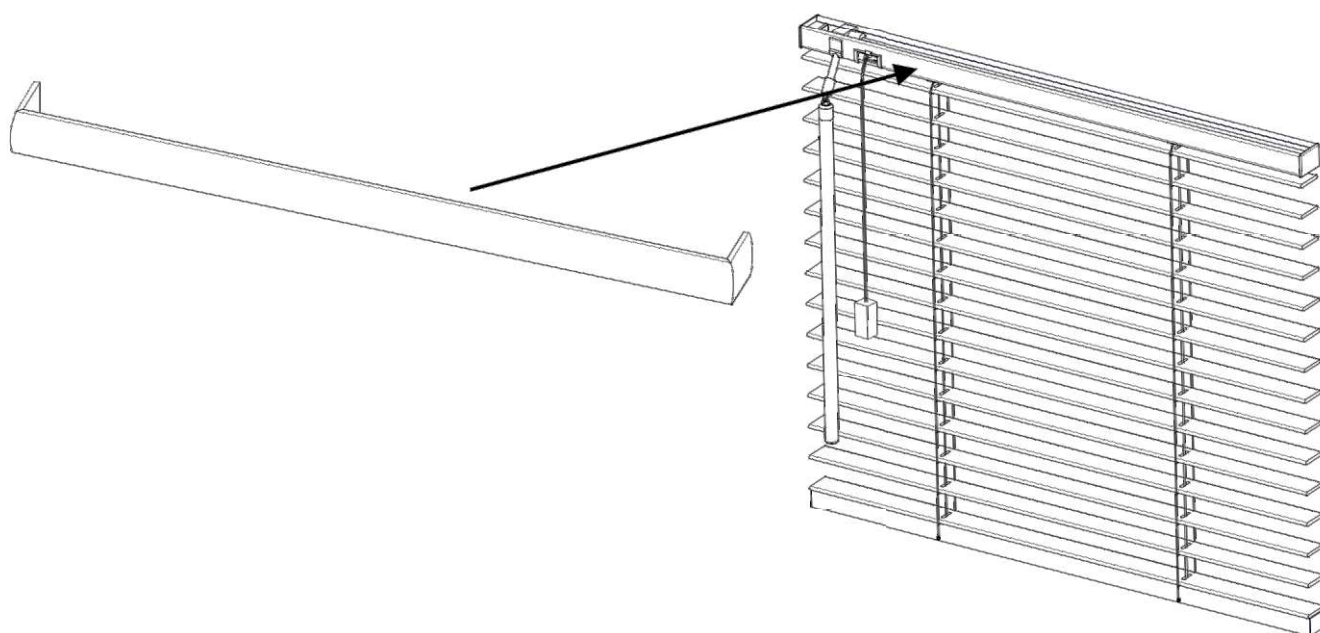

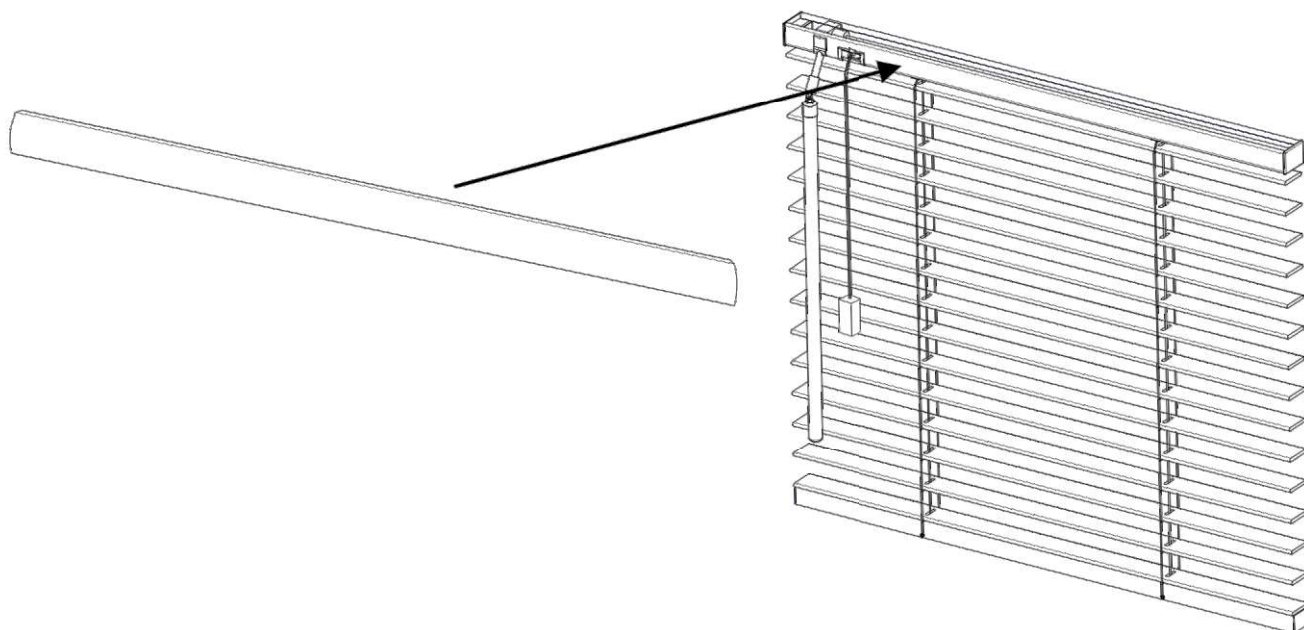

## Step II

Attach the blind to the mounted hangers. See the following 3 pictures showing the way of how the blinds are attached to the hangers. The last step is a clicking of hanger lever.

### Step III

Depending on the type of cover chosen, put it on the gutter. It is equipped with magnets that will stick to the gutter.

#### Step IV Option

If the side guide on the cables was selected then additional accessories were added. The following pictures shows the way of installation. Cut off any excess cables after installation.
